

**Author:** Gary Schmidt

**School:** Gardiner Regional Middle School

**Visit Reflection:** “Students participated in three grade level writing workshops. Gary gave personal feedback to each student and offered to have stories sent to him once they are finished for follow-up feedback. After school we had a meet and greet with Gary and teachers. We had teachers from a variety of content areas attend. The feedback from students, staff and the community was extremely positive. Responses included that he was engaging, an excellent storyteller, funny, and he had an excellent rapport with students.”
